front-end skills

- HTML 5
- CSS 3
- Responsive design
- Bootstrap
- Tailwind CSS
- JavaScript (cruds)
- React (crud)

others skills

- Git/Github
- mockAPI

PROFESSIONAL EXPERIENCE

I trained at Ejada Company from July 1st to August 5th at Track Front-end Development.

In the first years of college, I worked on web projects, frond by html &css and java script and back end by php and machine learning projects, and I am currently studying in the graduation project.

I worked on external projects that I obtained from the Devest event, from the Front end Monitor website.

I did many assignments from other courses like MSP Tech alazhar
